SLIME STATISTICS

- Eco-friendly since 1989
- Exported to over 87 countries
- Over 60,000 retail distribution points worldwide
- Featured as original equipment in the automotive, motorcycle and bicycle markets
- Distribution facilities in the USA, Europe, Australia and Asia
- Accessories Marketing Inc. is an ISO 9001:2008 and ISO/TS 16949:2009 certified company
- Memberships with the following organizations: AAPEX, SEMA, AAIA, ORBA, NATDA and ASA
- Official tire sealant and/or contingency sponsor for the following race series: SCORE, SNORE, MORE, BITD, MDR, CODE, RECORD, W.E.ROCK and DAKAR

Slime products are available in an array of international packaging configurations. Please speak with your Slime sales representative to receive a copy of a region specific international catalog.

WORLDWIDE LEADER IN TIRE CARE

Slime, Slimepro, Smart Tube, Power Spair, Quick Spair, Safety Spair, Truck Spair, Slime's Green Promise, The Slime Promise, Tire Top Off, Fuel Saver, Smart Spair, and Inflate-Right are property of Illinois Tool Works, Inc. All other marks are the property of their respective holders.

As the worldwide leader in tire care, Slime's complete product line works together to keep tires out of landfills.

Choosing to use Slime to repair a flat enables the tire to be cleaned, professionally repaired, and remain in use. Our sealants even contain chunks of recycled rubber, further reducing the number of tires in landfills.

Regular use of Slime pressure gauges and inflators ensures that tires operate at proper pressure levels, maximizing tire tread life.

By continuing to provide environmentally friendly solutions for our customers' tires, we are able to make a difference. After all, for us being green goes deeper than just our brand color.

Products featuring Slime's Green Promise are:

- Non-toxic
- Non-hazardous
- Free of carcinogens
- Non-ozone-depleting
- Minimally packaged

SLIME IS THE OFFICIAL TIRE SEALANT OF SCORE INTERNATIONAL OFF-ROAD RACING

TIRE SEALANT

SLIME BASICS

For over 20 years, Slime has been the world's most effective sealant. When a puncture occurs, our patented sealant is instantly carried directly to the puncture. The pressure of the escaping air then forces the Fibro-Seal™ particles into the opening, where they build up and intertwine to form a long-lasting, flexible plug. Instantly, air loss is blocked and a flat tire is prevented.

SAFE FORMULATIONS

Slime sealant is the safest, most effective tire sealant available. With a low freezing point of -35°F (-37°C) and a high separation point of 182°F (82°C), our sealants will remain effective under even the most extreme temperatures. Slime tube and tire sealants are non-toxic, non-flammable and clean up easily with water. Our sealant is specially designed to be non-corrosive, making it safe for tires and rims.

VERSATILE CAPABILITIES

Slime seals tread area punctures in: ATVs, bikes, cars, trucks, motorcycles, lawn mowers, tractors, trailers, wheelbarrows and even jogger strollers. Slime is non-toxic and water soluble, so it can be safely removed from the tire, enabling the permanent application of an RMA (Rubber Manufacturers Association) approved plug/patch.

TPMS COMPATIBILITY

In order for a tire sealant to be accepted by leading sensor manufacturers, it must pass three product tests. After each test, the sensor is reinstalled on the vehicle and checked for proper functionality. A sensor must be functional after all three tests in order for the sealant to be endorsed by TPMS manufacturers.

THE INSTALLATION TEST

In this test, sealant must pass freely through the sensor without clogging the device. In order to pass this test, the sensor must show no evidence of clogging. Slime passed all in-house and third-party testing.

THE SUBMERSION TEST

During this test, the sensor is fully submerged in the sealant, simulating exposure to the sealant inside a tire. In order to pass, the sensor must remain fully functional and show no evidence of damage. Slime passed all in-house and third-party testing.

THE VAPOR TEST

In this test, the sensor is exposed to the sealant, then heated to 158°F (70°C), a temperature within the operating specifications of the tire and tire sensor. This test is designed to simulate the high operating temperature of a tire in use. In order for a sealant to pass this test, no evidence of sensor damage may be present. Slime passed all in-house and third-party testing.

Third-party testing confirms Slime passes all three manufacturer required tests. Slime sealant will not damage TPMS sensors under extreme driving conditions. Choose the one tire sealant with proven TPMS compatibility.

TUBELESS SEALANT

RIDE LIKE A PRO.

Slimepro tubeless sealant was designed and tested by professional riders to outperform the competition. This lightweight, non-corrosive, non-hazardous sealant provides unmatched protection by instantly and repeatedly sealing punctures before they ruin your ride.

- Prevents and repairs flat tires
- Guaranteed to outperform the competition
- Lightweight, non-corrosive, non-hazardous
- Compatible with UST and conversion systems
- Seals bead

“IN MY TRIALS SLIMEPRO TUBELESS OUTLASTED ITS MAJOR COMPETITOR BY A SLIGHT MARGIN, AND IT PERFORMED JUST AS WELL AND WAS LESS TOXIC SMELLING TO WORK WITH. SLIMEPRO TUBELESS SEALANT HAS PROVED DEPENDABLE.”

**I WANTED TO TELL YOU WHAT
A GREAT PRODUCT YOU HAVE.**

I TOOK A TRIP FROM INDIANA TO VIRGINIA IN MY CAR, AND AFTER 800 MILES I FOUND A NAIL IN ONE OF THE TIRES. I DIDN'T HAVE THE EXTRA MONEY TO BUY A NEW TIRE, SO I WENT TO AUTOZONE AND BOUGHT YOUR PRODUCT. WE DROVE HOME FROM VIRGINIA BEACH BACK TO INDIANA AND NEVER HAD A PROBLEM. THE TIRE IS STILL FINE; IT HELD AIR FOR OVER 1000 MILES.

SPAIR FAMILY

SEALANT + AIR = SPAIR

Moto Spair
 • Sealant & inflator kit
 • Compact & portable
PART# 50001

Contents: 18" air hose with quick-clip, 12" alligator clip cord for any battery, high power 12 Volt 300 psi air inflator, 18" power cord with 12 Volt accessory outlet adapter, 12" pre-wire cord direct to battery, 8' SAE power cord, 10-50 psi tire pressure pencil gauge, 8 oz. tire sealant

THE SLIME PROMISE

We put safety first by creating a product that is safer for you and your tires—a product that is non-flammable, free of carcinogens and tire sensor safe.

EMERGENCY FLAT TIRE REPAIR

Finally, affordable emergency tire repair that delivers results without sacrificing safety.

In just seconds, Quick Spair seals the puncture and inflates the tire, allowing you to go from the side of the road to a service station.

- Seals and inflates in seconds
- TPMS safe
- Easy to use
- Cleans up with water
- Emergency formula
- Non-flammable

2007 GREAT DIVIDE
RACE RECORD SETTER

SUPER THICK SMART TUBES FOR BICYCLES

When you need the ultimate protection, install a super thick Smart Tube. Super thick Smart Tubes combine an ultra-thick, thorn-resistant tube with Slime tube sealant. Together, they provide a physical barrier against thorns, glass and nails. Should any debris get through, Slime tube sealant instantly goes to work, seeking out and sealing the puncture.

SCHRADER VALVE

PART #	TUBE SIZE
30050	20" Super thick
30046	26" Super thick

PRESTA VALVE

PART #	TUBE SIZE
30055	26" Super thick

LITE SMART TUBES FOR BICYCLES

Lite Smart Tubes combine a lightweight butyl tube with revolutionary Slime lite tube sealant to provide superior flat tire protection without adding significant weight.

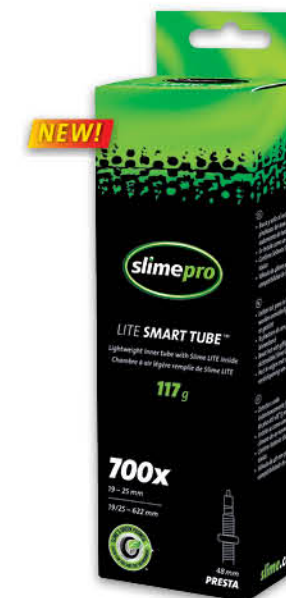

- Instantly seals punctures up to 1/8" (3mm)
- Available in Presta and Schrader styles

SCHRADER VALVE

PART #	TUBE SIZE
30027	26 x 1.75 - 2.125

PRESTA VALVE

PART #	TUBE SIZE
30024	26 x 1.75 - 2.125
30025	700 x 28 - 35
30026	700 x 19 - 25
