The Leader in Performance Cooling

The Leader in Performance Cooling

Why "DeraLe Performance"?

As we look back over the last 30 years at the DeraLe product line, one thing stands out above all others.....change. We pride ourselves on positive and productive change and it's a major reason that our future is brighter than ever.

In the early 1980's the company focused primarily on oil coolers, fittingly our name reflected our products; "DeraLe Oil Coolers". By the end of the decade the product line had expanded further into the cooling products arena having added electric fans, flex fans, fan clutches and transmission cooling pans. This growth required a more appropriate label to match our progress, and we became "DeraLe Cooling Products". Once again as our long term goals and product line expands past the limitations of the current name, it is appropriate to change the name once again to "DeraLe Performance".

Regardless of our name, the one thing that remains unchanged is the quality, service, and relationships we have built over the years. As you can see in this new catalog and in the very near future, we are no longer your typical cooling products company. We hope that you are as excited about these changes as we are.

Who is "Dyno-Cool"?

In the new global economy many competitors now source everything from individual components to entire assemblies overseas, DeraLe's predominantly "Made in the USA" product line has had an increasingly difficult time competing in certain market segments, namely the value priced market. This segment continues to grow, and with people's income being strained by the rising cost of transportation, energy, food, and housing, this trend is likely to continue.

Dyno-Cool by DeraLe allows the company the flexibility not only to remain in the value segment market, but our expertise allows us to build relationships with overseas cooling product manufacturers interested in supplying high quality products. The companies that supply our Dyno-Cool line are leaders as well, and OE suppliers to companies such as Ferrari, Toyota, Nissan and others. We back these outsourced products as we do our own. There are many suppliers of cooling products overseas selling directly to the U.S., but few who are in the cooling business. There is a difference.

High Output Dual RAD Fan

- Designed for primary cooling
- Powdercoated metal shroud with stator flow directors
- High Output 265 watt motors
- Ultra-quiet patented skewed blade design
- Multiple mounting options
- Puller (engine side) applications only
- Available in two hardware kit options

Part# 16927

WIRING RECOMMENDATIONS:
Fan Kit - Includes mounting kit with two high amperage relay harnesses
Thermostat Kit - Includes installation kit with two thermostats and relay harnesses
Fan 1 - 180°F turn on temperature with push-in or screw-in probe
Fan 2 - 190°F turn on temperature with screw-in probe only
 See Pages 12 & 13 for alternative thermostat options

| Fan Kit Part No. | Fan & Thermostat Kit Part No. | CFM* | Amp Draw (Fan 1 / 2) | Dim. A (Width) | Dim. B (Height) | Dim. C (Depth) | Dim. D (Overall Depth) | Dim. E (Mounting) | Dim. F (Mounting) |
|------------------|-------------------------------|------|----------------------|----------------|-----------------|----------------|------------------------|-------------------|-------------------|
| 16927 | 16027 | 4000 | 24.8 / 24.8 | 26" | 18" | 2" | 3 3/4" | 13 1/4" | 21 1/4" |

* CFM tested at zero static pressure.

ELECTRIC FANS

High Output Dual RAD Fans

- Designed for primary cooling
- Injection molded shroud with stator flow directors
- High Output 265 watt motors
*No. 16812 excluded
- Ultra-quiet patented skewed blade design
- Multiple mounting options
- Puller (engine side) applications only
- Available in two hardware kit options

Part #
16928

Part #
16934

WIRING RECOMMENDATIONS:

Fan Kit - Includes mounting kit with two high amperage relay harnesses

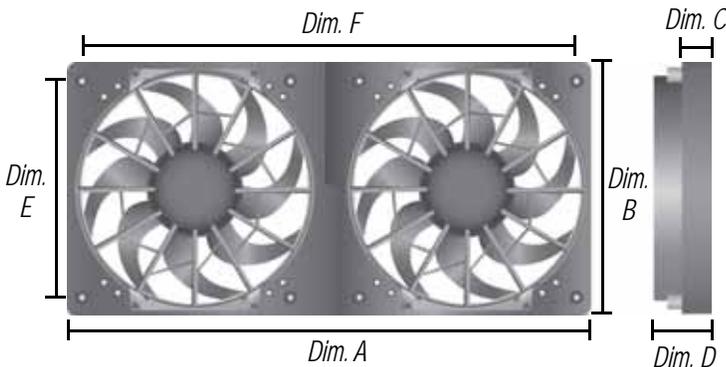

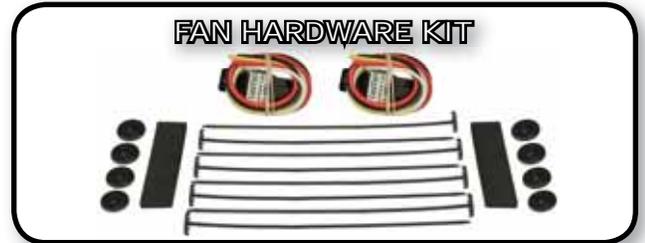

Fans require two separate turn-on sources

Thermostat Kit - Includes installation kit with two thermostats and relay harnesses

Fan 1 - 180°F turn on temperature with push-in or screw-in probe

Fan 2 - 190°F turn on temperature with screw-in probe only

See Pages 12 & 13 for alternative thermostat options

| Fan Kit Part No. | Fan & Thermostat Kit Part No. | CFM* | Amp Draw (Fan 1 / 2) | Dim. A (Width) | Dim. B (Height) | Dim. C (Depth) | Dim. D (Overall Depth) | Dim. E (Mounting) | Dim. F (Mounting) |
|------------------|-------------------------------|------|----------------------|----------------|-----------------|----------------|------------------------|-------------------|-------------------|
| 16812 | ----- | 1360 | 4.8 / 4.8 | 24 3/4" | 11 1/2" | 1 1/4" | 3" | 10" | 22 1/2" |
| 16928 | 16028 | 4000 | 24.8 / 24.8 | 28 5/8" | 13 7/8" | 1 1/2" | 3 1/2" | 11 3/8" | 25 5/8" |
| 16934 | 16034 | 4000 | 24.8 / 24.8 | 31 3/8" | 15 3/4" | 1 3/8" | 3 1/4" | 12 7/8" | 28 7/8" |

* CFM tested at zero static pressure.

High Output Single RAD Fans

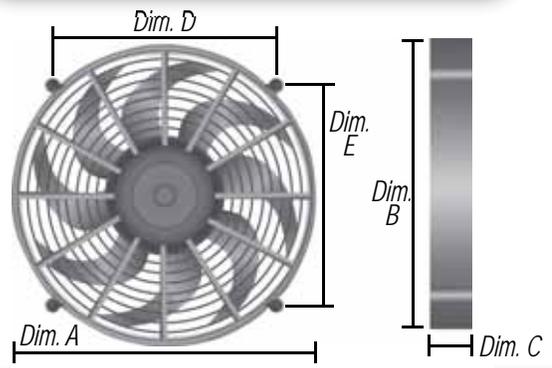

- Mounts as a Pusher or Puller without flipping blade or switching motor leads
- State-of-the-art symmetrical design
- High Output 265 watt 2 speed motor
- Ultra-quiet patented skewed blade design
- Patented ratchet mounting system
- Multiple mounting options

Part# 16212
Part# 16214
Part# 16217

WIRING RECOMMENDATIONS:
For two speed operations fans require two separate turn-on sources
See Pages 12 & 13 for thermostat options

Easily combines any two size fans shown for dual applications.

| Part No. | Fan Size | CFM* High / Low | Amp Draw High / Low | Dim. A (Width) | Dim. B (Height) | Dim. C (Depth) | Dim. D (Mounting) | Dim. E (Mounting) |
|----------|------------------------|--------------------|------------------------|-------------------|--------------------|-------------------|----------------------|----------------------|

| 16200 | Dual Mount Bracket Kit | | | | | | | |

* CFM tested at zero static pressure.

ELECTRIC FANS

High Output Single RAD Fans

- Designed for primary cooling
- High Output two speed motor
- Ultra-quiet patented skewed blade design
- Powdercoated metal fan shroud
- Puller (Engine Side) applications only

Part # 16919

- Perfect for harsh off road environments
- High Output motor
- Dust & Water proof Motor design
- IP68 Certified
- Puller applications only

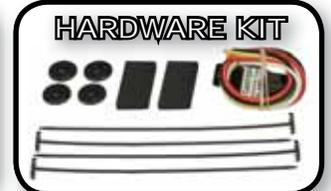

Part# 16918

HARDWARE KIT

WIRING RECOMMENDATIONS:
Includes high amperage relay wire harness
See Pages 12 & 13 for thermostat options

HARDWARE KIT

WIRING RECOMMENDATIONS:
Includes high amperage relay wire harness
For two speed operations fan requires two separate turn-on sources
See Pages 12 & 13 for thermostat options

- Designed for primary cooling
- Injection molded fan shroud with stator flow directors
- High Output 265 watt motor
- Ultra-quiet patented skewed blade design
- Puller applications only

Part # 16926

- Injection molded fan housing with stator flow directors
- High Output 265 watt motor
- Ultra-quiet patented skewed blade design
- Pusher applications only

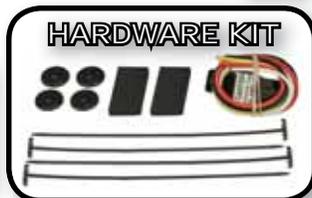

Part# 16925

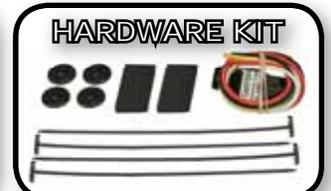

Can be used in Puller applications when custom shroud is used
Replacement fan for Derale numbers: 16926, 16927, 16928 & 16934

WIRING RECOMMENDATIONS:
Includes high amperage relay wire harness
See Pages 12 & 13 for thermostat options

HARDWARE KIT

† Two speed motor .

* CFM tested at zero static pressure.

ELECTRIC FANS

Tornado Fans

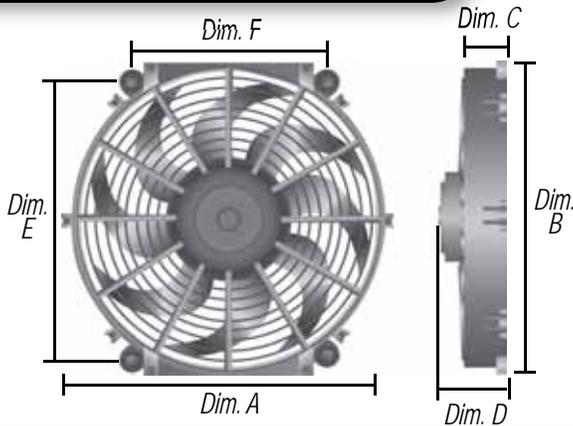

- Reliable, efficient, high torque motors
- Ultra-quiet patented skewed blade design
- Offered in 9 sizes to fit multiple applications
- Available in two hardware kit options, Manual switch or Thermostatically controlled

WIRING RECOMMENDATIONS:
Fan Kit - Includes mounting kit with lighted toggle switch & wiring
Thermostat Kit - Includes installation kit with 180° F thermostat
 See Pages 12 & 13 for thermostat options

+ Note: 4" & 5" fans are designed as puller fans only. (Not reversible)

Note: Fan & thermostat kits include both push-in radiator fin probe & screw in water jacket probe.

Relay wire harness included in Part No. 16016 only.

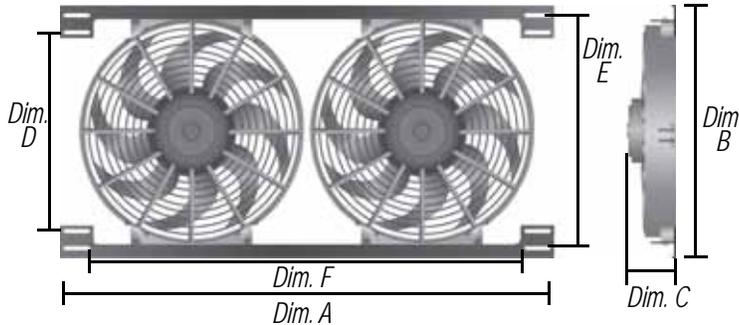

| Fan Kit Part No. | Fan & Thermostat Kit Part No. | Fan Size | CFM* | Amp Draw | Dim. A (Width) | Dim. B (Height) | Dim. C (Depth) | Dim. D (Overall Depth) | Dim. E (Mounting) | Dim. F (Mounting) |

Tornado Fan Mounting Brackets

- Fits 10", 12", 14" and 16" Tornado Fans

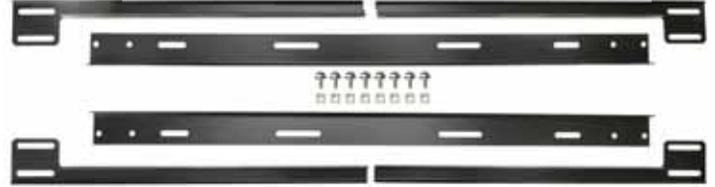

SINGLE FAN MOUNTING BRACKETS

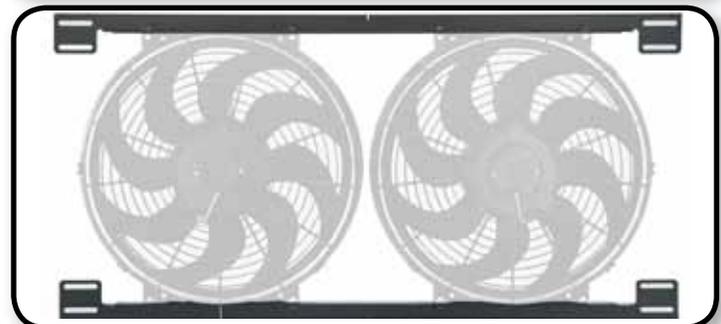

| Part No. | Description |
|----------|------------------------------|
| 16700 | Single Fan Mounting Brackets |

DUAL FAN MOUNTING BRACKETS

| Part No. | Description |
|----------|----------------------------|
| 16701 | Dual Fan Mounting Brackets |

- Adjustable universal mounting
- Perfect for most applications

Curved Blade Fans

- Efficient curved blade design
- Offered in 5 sizes to fit multiple applications
- 16" Fan is offered as an Ultra Low Profile design

- Available in two hardware kit options, Manual switch or Thermostatically controlled
- Fan & thermostat kit includes two probe options

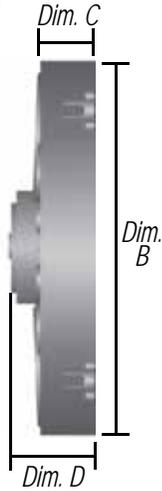

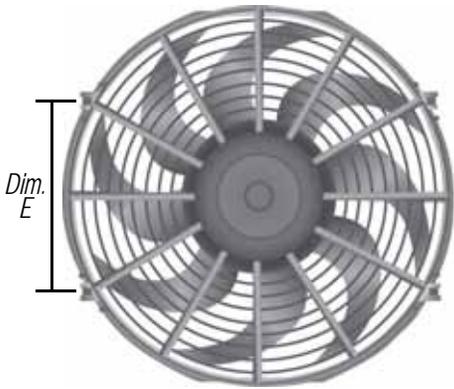

Note: Fan & Thermostat kits include both push-in radiator fin probe & screw in water jacket probe.

WIRING RECOMMENDATIONS:
Fan Kit - Includes mounting kit
Thermostat Kit - Includes installation kit with 180°F thermostat
 See Pages 12 & 13 for thermostat options

|----------|-------|
| Part No. | 16740 |
|----------|-------|

ADJUSTABLE FAN CONTROLLERS

Premium Series

- New solid state design
- Adjustable turn-on temperature from 150-240°F
- Turn-off temperature is preset at 10°F below turn-on temperature
- Removable probe design available in both push-in probe & 3/8" NPT thread-in probe
- Removable adjustment knob
- A/C override circuit included

MAXIMUM CAPACITY: 35 amps

Hardware kit not shown

Part# 16779

Standard Series

- Adjustable turn-on temperature from 150-240°F
- Turn-off temperature is preset at 10°F below turn-on temperature
- Removable probe design available in both push-in probe & 3/8" NPT thread-in probe
- Heavy duty 40/60 amp relay
- A/C override circuit included

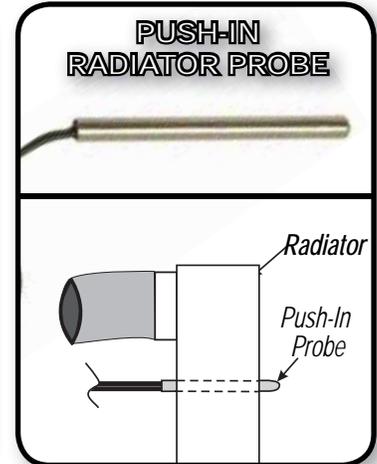

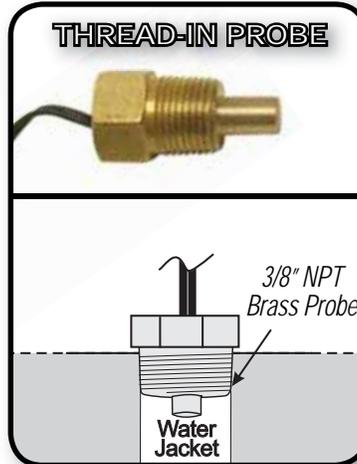

MAXIMUM CAPACITY: 25 amps

Hardware kit not shown

| Replacement Probes | |
| 16750 | 3/8" NPT Thread-In Probe |
| 16760 | Push-In Radiator Probe |

Mechanical Fan Controller

- Adjustable turn-on temperature from 32-240°F
- Turn-off temperature is preset at 10°F below turn-on temperature
- Radiator hose probe design **MAXIMUM CAPACITY: 16 amps**

Part No. 16769

SINGLE STAGE FAN CONTROLLERS

- 180°F preset turn-on temperature
- Turn-off temperature is preset at 165°F
- Removable probe design available in both push-in probe & 3/8" NPT thread-in probe
- New universal kit part number comes with both push-in & thread-in probes

NEW

Complete hardware kit not shown

Part# 16735

Premium Series

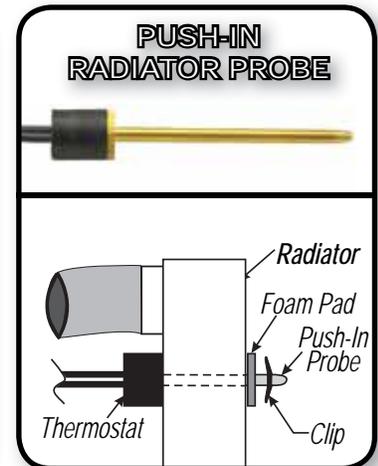

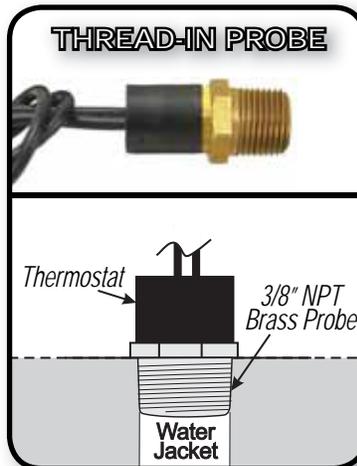

- Includes Heavy duty 40/60 amp relay harness
- A/C override circuit

Complete hardware kit not shown

Part# 16738

| Part No. | Description |
|--|---------------------------------------|
| Standard Series MAXIMUM CAPACITY: 15 amps | |
| 18735 | Universal - Thread-In & Push-In Probe |
| 18738 | Push-In Radiator Probe |
| 18739 | 3/8" NPT Thread-In Probe |
| Premium Series MAXIMUM CAPACITY: 25 amps | |
| 16735 | Universal - Thread-In & Push-In Probe |
| 16738 | Push-In Radiator Probe |
| 16739 | 3/8" NPT Thread-In Probe |
| Replacement Probes | |
| 16736 | Push-In Radiator Probe |
| 16737 | 3/8" NPT Thread-In Probe |

Thread-In Fan Switches

- Available in 2 preset temperatures 180 & 190°F
- Turn-off temperature is preset 15°F below turn-on temperature
- 3/8" NPT x 1/8" NPT bushing included
- Available with & without thermostat Relay harness

Part# 16720

MAXIMUM CAPACITY: 25 amps

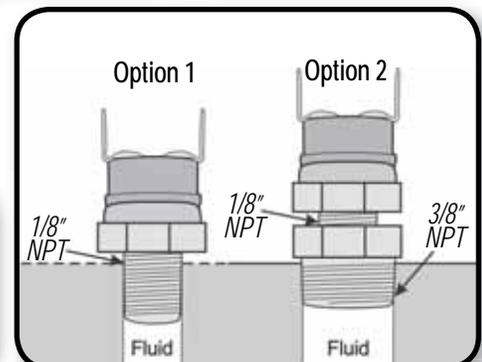

Part# 16730

MAXIMUM CAPACITY: 15 amps

NEW

| Thermostat Relay Kit Part No. | Thermostat Kit Part No. | Temperature | Thread |
|-------------------------------|-------------------------|-------------|-----------------|
| 16720 | 16730 | 180°F | 1/8" & 3/8" NPT |
| 16721 | 16731 | 190°F | 1/8" & 3/8" NPT |

TRANSMISSION PAN COOLERS

- Reduces fluid temperatures 20-50° F
- Heavy-gauge stamped steel construction
- Increases fluid capacity
- Patented turbulator cooling tubes add heat transfer capability
- Zinc plated finish

Derale Transmission Pan Coolers use the air flowing beneath the vehicle to reduce fluid temperatures from 20°F to 50°F. Features include heavy-gauge stamped steel construction, patented turbulator cooling tubes and a zinc plated finish. Increases fluid capacity. Replacement pan gasket included.

**TRANSMISSION PAN
MAGNETIC DRAIN PLUG KIT**

Increased Magnet Strength

Rubber / Steel Washer

Now Included With Every Pan!

NEW

GM TURBO 350

GM TURBO 400

| Application | Part No. | Extra Capacity | Dim. A (Pan Depth) | Dim. B (Tube Depth) | Repl. Gasket |
|-------------------------|----------|---|--------------------|---------------------|--------------|
| GM Turbo 350 | 14100 | 2 Qts. | 3 1/4" | 2 1/16" | 96900 |
| GM Turbo 400 (Standard) | 14101 | 3 Qts. 8 Oz. | 2 7/8" | 2" | 96901 |
| GM Turbo 400 (Deep) | 14102* | Deep OE pan to Deep pan - 1 Qt. 3 Oz. Std. OE pan to Deep pan - 3 Qts. 8 Oz. | 4" | 3 1/16" | 96901 |

* To change application from a standard depth transmission pan to a deep transmission pan, it will require the purchase of an extended Filter Pickup Tube. Part #14002 (See page 15).

TRANSMISSION PAN COOLERS

GM 700R4 & 4L60E

Fits most GM 700R4 & 4L60E 1982-1999 applications

Part# 14104

GM 4L80E

Fits most GM 4L80E 1991-2008 applications

Part# 14107

FORD 4R100 & E4OD

Fits most Ford E4OD & 4R100 1989-2004 applications

Part# 14108

DODGE / CHRYSLER

Fits most Dodge A518, A618, A727, 46RE, 46RH, 47RE & 48RE 1982-2007 applications

Part# 14110

| Application | Part No. | Extra Capacity | Dim. A (Pan Depth) | Dim. B (Tube Depth) | Repl. Gasket |
|---|----------|---|--------------------|---------------------|--------------|
| GM 700R4, 4L60E | 14104 | 2 Qts. 4 Oz. | 3 5/8" | 2 3/8" | 96906 |
| GM 4L80E | 14107 | 4 Qts. 16 Oz. | 4 1/16" | 2 3/8" | 96909 |
| Ford 4R100, E4OD | 14108 | 5 Qts. 2 Oz. | 4 3/4" | 2 5/8" | 96908 |
| Dodge A618, A727, 46RE, 46RH, 47RE & 48RE | 14110 | A727 to Derale Pan - 5 Qts. 16 Oz. A518 to Derale Pan - 2 Qts. 3 Oz. | 4 1/2" | 3 5/8" | 96905 |

See Application Guide for detail specific applications

Transmission Pan Cooler Accessories

FILTER PICKUP TUBE

Application:

GM TH400 deep pan

- Extends filter for use on deep transmission pans

Part# 14002*

DEEP PAN FILTER EXTENDER

Application: Dodge 518, 618, 727

- Extends filter for use on deep transmission pans

Part# 14010

UNIVERSAL DRAIN PLUG KIT

- 1/8" NPT Plug
- Perfect for temp. sending units

Part# 13010

MAGNETIC DRAIN PLUG KIT

- 1/2"-20 Threads
- Increased magnet strength
- Rubber/steel washer

Part# 14000

* To change application from a standard depth transmission pan to a deep transmission pan, it will require the purchase of an extended Filter Pickup Tube. Part #14002.

Performance Electric Fan Kit

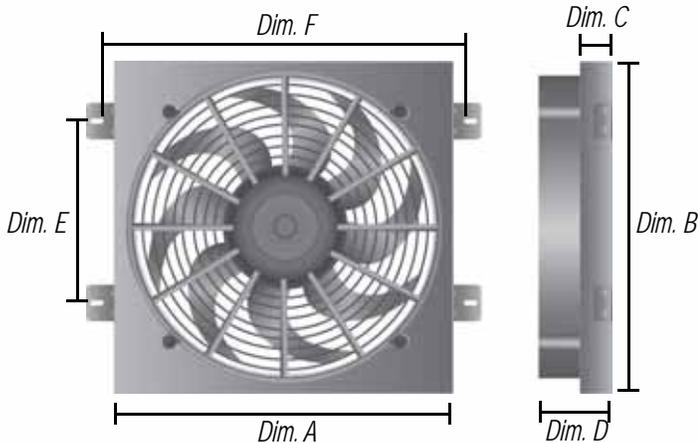

APPLICATIONS

1987-1996 Jeep Wrangler YJ
 1997-2006 Jeep Wrangler TJ
 All 4 & 6 cylinder Engines

- Replaces fan clutch, fan shroud & new shroud mounts to factory locations
- Complete kit includes everything you need for a do-it-yourself installation
- Radiator reservoir remount brackets included (used on some 4 & 6 cyl. Applications)
- Power steering remount brackets included (used on some 4 cyl. applications)
- Powdercoated metal shroud
- High Output 265 watt motor
- Thermostatic controlled reliability
- A/C override circuit included
- Easy to follow step-by-step illustrated instructions

NEW

| Part No. | Amp Draw | Dim. A (Width) | Dim. B (Height) | Dim. C (Depth) | Dim. D (Overall Depth) | Dim. E (Mounting) | Dim. F (Mounting) |
|----------|----------|----------------|-----------------|----------------|------------------------|-------------------|-------------------|
| 20161 | 23.5 | 19 1/2" | 18" | 1 5/8" | 3 5/8" | 10" | 22 5/8" |

Automatic Transmission Cooler

APPLICATIONS

1987-1996 Jeep Wrangler YJ
1997-2006 Jeep Wrangler TJ
All 4 & 6 cylinder Engines

- Reduces fluid temperatures 30-40° F
- Perfect for rock crawling and off-road use when airflow is limited
- Complete kit includes everything you need for a do-it-yourself installation
- Dramatically increases transmission life
- Thermostatically controlled electric fan for optimal cooling
- Mounts to frame rail with no drilling

HARDWARE KIT

| Part No. | Fan Amp Draw |
|----------|--------------|
| 20561 | 4.8 |

Hyper-Cool

- Mounts anywhere space permits
- Electric fan supplies optimum airflow
- Extends engine or transmission life
- High efficiency Stacked Plate cooler
- Clear anodized aluminum shroud
- 500 CFM reversible Tornado electric fan
- Available with -6 AN, -8 AN or -10 AN fittings

Actual hardware kit shown

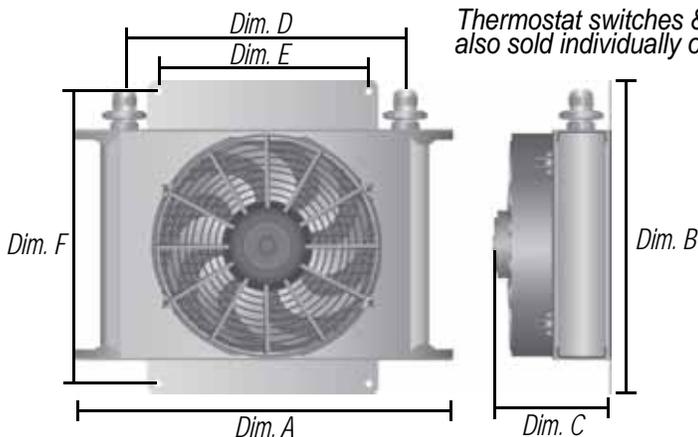

Cooler Assembly - Includes complete cooler assembly, two aluminum AN fittings (-6 AN, -8 AN or -10 AN) and two brass hose barb fittings (-6 AN x 3/8" barb, -8 AN x 1/2" barb or -10 AN x 1/2" barb)

Transmission Cooler Kit - Includes complete cooler assembly, two aluminum AN fittings (-6 AN or -8 AN), four brass hose barb fittings (-6 AN x 3/8" barb or -8 AN x 1/2" barb), 180°F In-line thermostat, 10 feet of OEM spec hose, 5/16" Insta-dapt radiator fitting, two compression fittings (3/8" x 3/8" hose barb or 1/2" x 1/2" hose barb), four stainless hose clamps and 1/4" mounting hardware

Engine Oil Cooler Kit - Includes complete cooler assembly, Universal* thermostatic sandwich adapter and adapter plate, 13/16-16", 3/4-16", 18mm, 20mm & 22mm sleeve nuts, two aluminum -8 AN fittings, four brass hose barb fittings, 180°F -8 AN In-line thermostat, 10 feet of OEM spec hose, four stainless hose clamps and 1/4" mounting hardware

*Universal application - One part no. fits most automotive applications.

See Engine Adapter Quick Reference Guide on page 36 for specific applications.

Thermostat switches & hardware also sold individually on page 22.

REMOTE OIL & TRANSMISSION COOLERS

Atomic-Cool

- Mounts anywhere space permits
- Electric fan supplies optimum airflow
- Extends engine or transmission life
- High efficiency OEM style plate & fin cooler
- Clear anodized aluminum brackets
- 500 CFM reversible Tornado electric fan
- Available with -6 AN or -8 AN fittings

REVERSIBLE

Actual hardware kit shown

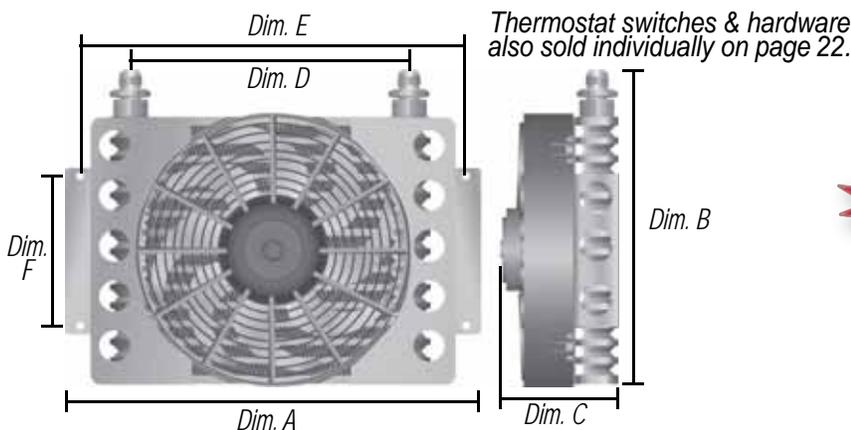

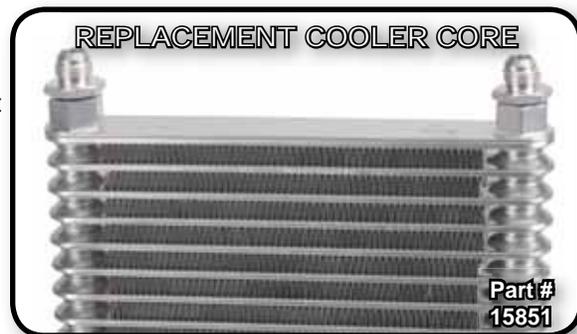

Cooler Assembly - Includes complete cooler assembly, two aluminum AN fittings (-6 AN or -8 AN) and two brass hose barb fittings (-6 AN x 3/8" barb or -8 AN x 1/2" barb)

Transmission Cooler Kit - Includes complete cooler assembly, two aluminum AN fittings (-6 AN or -8 AN), four brass hose barb fittings (-6 AN x 3/8" barb or -8 AN x 1/2" barb), 180°F In-line thermostat, 10 feet of OEM spec hose, 5/16" Insta-dapt radiator fitting, two compression fittings (3/8" x 3/8" hose barb or 1/2" x 1/2" hose barb), four stainless hose clamps and 1/4" mounting hardware

Engine Oil Cooler Kit - Includes complete cooler assembly, Universal* thermostatic sandwich adapter and adapter plate, 13/16-16", 3/4-16", 18mm, 20mm & 22mm sleeve nuts, two aluminum -8 AN fittings, four brass hose barb fittings, 180°F -8 AN In-line thermostat, 10 feet of OEM spec hose, four stainless hose clamps and 1/4" mounting hardware

*Universal application - One part no. fits most automotive applications.

See Engine Adapter Quick Reference Guide on page 36 for specific applications.

In-line Fluid Thermostats

Standard Series

- 180°F preset turn-on temperature
- Turn-off temperature is preset at 165°F
- Avail. in -6 AN or -8 AN aluminum housing
- Brass hose barb fittings included

MAXIMUM CAPACITY: 15 amps

Premium Series

- Avail. in 180°F & 190°F turn-on temp
- Turn-off temperature is preset 15°F below turn-on temperature
- Available in -6 AN, -8 AN or -10 AN aluminum fittings
- New anodized aluminum swivel housing

MAXIMUM CAPACITY: 15 amps

Remote Cooler Mounting Kits

TRANSMISSION COOLER KITS

- Offered with 5/16", 3/8" or 1/2" cooler line compression fittings to fit every application

Transmission Cooler Kit - Includes In-line thermostat, 10 feet OEM spec hose, 5/16" Insta-dapt adapter, two compression fittings and mounting hardware

| Part No. | Description |
|----------|-----------------------------------|
| 13020 | 5/16" Cooler lines 3/8" Hose Barb |
| 13022 | 3/8" Cooler lines 3/8" Hose Barb |
| 13023 | 1/2" Cooler lines 1/2" Hose Barb |

ENGINE OIL COOLER KIT

Engine Oil Cooler Kit - Includes universal* thermostatic sandwich adapter and adapter plate, 13/16-16", 3/4-16", 18mm, 20mm & 22mm sleeve nuts, 180°F In-line thermostat, 10 feet OEM spec hose, and mounting hardware

*Universal application - One part no. fits most automotive applications. See Engine Adapter Quick Reference Guide on page 36 for specific applications.

| Part No. | Description |
|----------|-------------------|
| 15752 | Most Applications |

FLUID COOLER ACCESSORIES

SINGLE HOSE COOLER INSTALLATION KIT

- Complete installation kit for mounting most transmission coolers
- Four feet 11/32" OEM spec hose

Part No. 13006

INSTA-MOUNT KIT

- Universal mounting kit for coolers & electric fans

Part No. 13001

DUAL HOSE COOLER INSTALLATION KIT

- Complete installation kit for mounting most transmission coolers
- Eight feet 11/32" OEM spec hose

Part No. 13064

RIGID MOUNT KIT

- Universal bendable metal mounting brackets

Part No. 13002

UNIVERSAL DRAIN PLUG KIT

- 1/8" NPT Plug
- Perfect for temperature sending units

Part No. 13010

OIL TEMPERATURE GAUGE

- Transmission or Engine oil temperature
- 2-5/8" diameter electric gauge includes mounting bracket, 1/8" NPT sensor and transmissino pan adapter/drain plug to mount sensor in pan

Part No. 13009

STAINLESS HOSE CLAMPS

- Universal hose clamps, fits from 5/16" to 1/2" hose

Part No. 13008

REPLACEMENT OIL HOSE

- Transmission or Engine oil hose
- High temperature, high pressure OEM spec hose

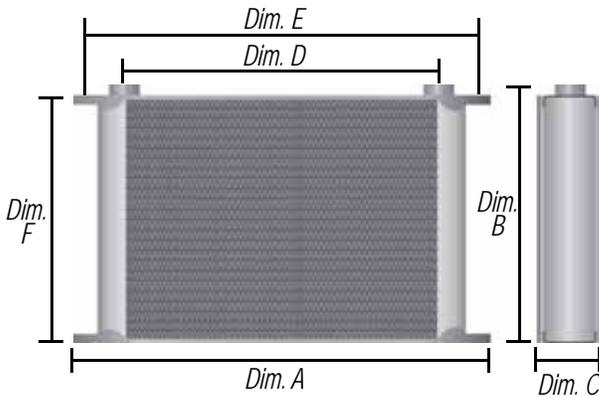

Part# 13003

Part# 13007

| Part No. | Hose ID | Length | Application |
|----------|---------|---------|--------------|
| 13003 | 11/32" | 4 feet | Transmission |
| 13007 | 11/32" | 25 feet | Transmission |
| 13016 | 3/8" | 5 feet | Transmission |
| 13017 | 3/8" | 25 feet | Transmission |
| 15700 | 1/2" | 10 feet | Engine |
| 15701 | 1/2" | 5 feet | Engine |
| 15799 | 1/2" | 25 feet | Engine |

STACKED PLATE COOLERS

- Designed for Engine or Transmission cooling
- Most efficient heat exchangers available
- Furnace brazed aluminum construction with 4 integrated mounting brackets
- Available in 4 cooler sizes, 10, 16, 19 & 25 rows
- Available with aluminum AN fittings
- Cooler Kit with fittings offered in -6 AN, -8 AN & -10 AN
- -10 AN / 7/8"-14 O-ring cooler inlets

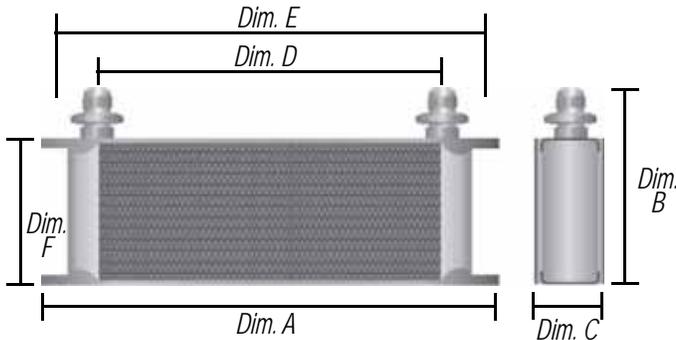

More Efficient, High Pressure Cooler Design

Series 9000 Plate & Fin Cooler Kits

- Prevents heat related transmission failures
- Extends life of transmission
- Improves transmission performance
- Sturdy furnace-brazed aluminum construction
- 1 1/4" turbulators maximize cooling & minimize pressure drop
- New 1/2" NPT female cooler fittings
- 1/2" NPT x 3/8" hose barb adapters included
- Complete hardware kit included

TRANSMISSION COOLERS

Series 8000 Plate & Fin Cooler Kits

- Prevents heat related transmission failures
- Extends life of transmission
- Improves transmission performance
- 3/4" embossed turbulators maximize cooling & minimize pressure drop
- Sturdy furnace-brazed aluminum construction
- 11/32" hose barb inlets
- Complete hardware kit included

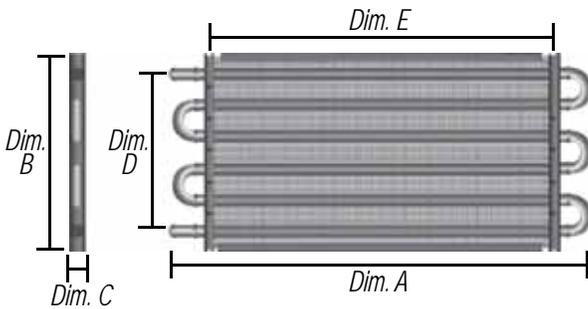

| Part No. | GVW | Dim. A (Width) | Dim. B (Height) | Dim. C (Depth) | Dim. D (Inlets) | Dim. E (Mounting) | Dim. F (Mounting) | Dim. G (Mounting) |

Series 7000 Tube & Fin Cooler Kits

- Prevents heat related transmission failures
- Extends life of transmission
- Improves transmission performance
- 1/2" copper tubing expanded into aluminum cooling fins
- 11/32" hose barb inlets
- Embossed turbulators inserted in each tube agitate fluid for maximum heat transfer
- Extruded plastic cooling fin guards
- Offered in 8 sizes to fit any application
- Complete hardware kit included

COOLER CORES

Series 7000 AN Tube & Fin Cooler Cores

- 1/2" copper tubing expanded into aluminum cooling fins
- -6 AN male cooler fittings
- Extruded plastic cooling fin guards
- Embossed turbulators in each tube agitate fluid for maximum heat transfer
- Offered in 8 sizes to fit any application
- No hardware kit included

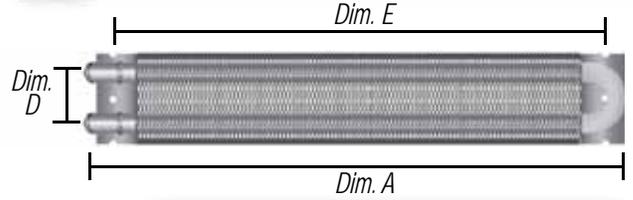

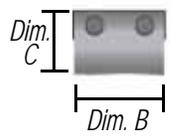

Recommended for:
 Transmissions
 Power Steering
 Fuel

HEAT SINK COOLERS

The Leader in Performance Cooling

- Aluminum Heat Sink design produces high heat transfer
- External & Internal heat dissipating fins
- Available in 5 sizes to fit any application
- Offered in single & dual pass designs
- Compact 3" diameter to fit most frame rails

Recommended for:
 Transmissions
 Engines
 Power Steering
 Fuel

Radiator Adapter Fittings

Barbed Splicer Fittings

DODGE/JEEP RADIATOR ADAPTER

Fits 1960-1997 Dodge Trucks with rubber transmission lines
Fits 1983-2007 Jeep with 5.2L, 4.2L, 4.0L, 2.5L Engines with rubber transmission lines

Part No. 13028

1/2"-20 Inverted Flare Fittings

FORD/LINCOLN/MERCURY RADIATOR ADAPTER

Fits 1983-2007 Ford/Lincoln/Mercury Cars, Trucks, Blackwood, Bronco, Expedition, Navigator, Ranger, Vans with 7.3L, 6.9L, 5.8L, 5.0L, 4.9L, 4.6L, 4.2L, 2.9L, 2.8L, 2.3L Engines

Part No. 13025

9/16"-18 37° JIC Fitting

DODGE DAKOTA RADIATOR ADAPTER

Fits 1999-2005 Dodge Dakota

Part No. 13030

9/16"-24 45° SAE Fittings Male & Female

DODGE RADIATOR ADAPTER

Fits 1999-2003 Dodge Trucks, Vans with 5.9L, 5.2L, 3.9L Engines

Part No. 13034

5/8" Inverted Flare Fittings

GM RADIATOR ADAPTER

Fits 1981-2000 Buick w/ 5.7L, 3.8L, 3.3L, 3.1L, 2.5L, 2.4L, 2.3L, 2.2L Engines

Fits 1988-2007 Cadillac Cars, Trucks with 6.2L, 6.0L, 5.7L, 5.3L, 4.9L, 4.6L, 4.5L, 4.1L, 3.0L Engines

Fits 1987-2007 Chevrolet Cars, SUVs, Chevrolet, GM Trucks, Vans w/ 8.1L, 7.4L, 6.5L, 6.0L, 5.7L, 5.3L, 5.0L, 4.8L, 4.3L, 3.8L, 3.4L, 3.2L, 2.4L, 2.3L, 2.2L Engines

Fits 1996-2001 Oldsmobile Bravada with 4.3L Engine

Fits 1983-2005 Pontiac Cars, SUVs with 5.7L, 5.0L, 3.8L, 3.4L, 3.1L, 2.4L, 2.2L, 1.6L Engines

Part No. 13018

1/4" NPT M/F 3/8" NPT Male Fittings

FORD/MERCURY RADIATOR ADAPTER

Fits 1983-2007 Ford/Mercury Cars, Trucks, Bronco, Expedition, Ranger, Vans w/ 7.5L, 7.3L, 6.9L, 6.6L, 5.8L, 5.4L, 5.0L, 4.9L, 4.7L, 4.6L, 4.2L, 4.0L, 3.8L, 3.0L, 2.9L, 2.8L, 2.5L, 2.3L Engines

Fits 1983-2007 Mercury Cars w/ 5.8L, 5.0L, 4.6L, 3.8L, 3.0L, 2.5L, 2.3L Engines

Part No. 13014

5/8" Inverted Flare Fittings

FORD/LINCOLN TRUCKS & SUV'S RADIATOR ADAPTER

Fits 1998-2007 Ford/Lincoln Trucks & SUV's, Blackwood, Excursion, Expedition, Explorer, Navigator, Ranger with 7.3L, 6.9L, 6.8L, 5.4L, 5.0L, 4.6L, 4.0L, 3.0L, 2.5L Engines

Part No. 13024

Snap in Tube Fitting

GM RADIATOR ADAPTER

Fits 1993-2007 Buick with 4.6L, 4.2L, 3.9L, 3.8L, 3.6L, 3.5L, 3.4L, 3.3L, 2.5L, 2.4L, 2.3L, 2.2L Engines

Fits 1993-2007 Cadillac 6.2L, 6.0L, 5.7L, 5.3L, 4.9L, 4.6L, 4.5L, 4.1L, 3.0L Engines

Fits 2000-2007 Chevrolet Cars, SUVs, Chevrolet, GM Trucks, Vans with 3.8L, 3.4L, 6.0L, 5.3L, 4.8L, 4.3L, 4.2L, 3.7L, 3.5L, 3.4L, 2.9L, 2.8L Engines

Fits 2003-2007 Isuzu SUVs with 4.2L, 5.3L Engines

Fits 2002-2004 Oldsmobile Bravada with 4.2L Engine

Fits 2001-2007 Pontiac with 3.9L, 3.8L, 3.5L, 3.4L, 3.1L Engines

Part No. 13035

Universal Transmission Line Fittings

5/16" Transmission Cooler Line to 3/8" NPT Hose Barb

Part No. 13031

3/8" Transmission Cooler Line to 3/8" NPT Hose Barb

Part No. 13032

1/2" Transmission Cooler Line to 1/2" NPT Hose Barb

Part No. 13033

INSTA-DAPT RADIATOR ADAPTER

Fits most vehicles with 5/16" transmission lines. Includes male and female threads.

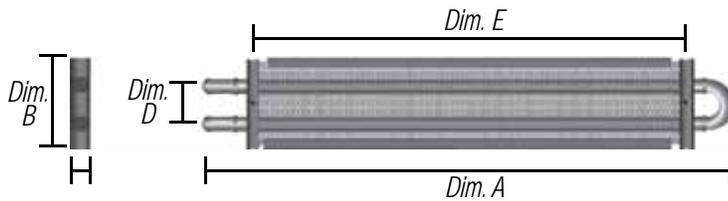

Part No. 13004

See application guide for detail specific applications

POWER STEERING COOLER KITS

Tube & Fin

- Extends pump & seal life
- Reduces heat related pump failure
- 1/2" copper tubing expanded into aluminum cooling fins
- 11/32" hose barb inlets
- Extruded plastic cooling fin guards

ENGINE OIL COOLER KITS

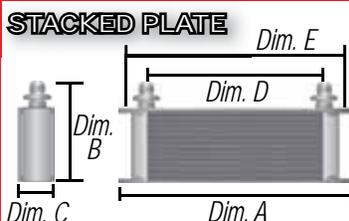

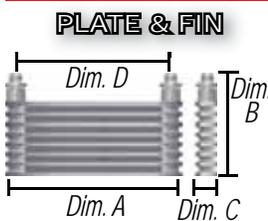

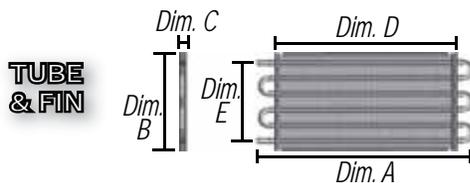

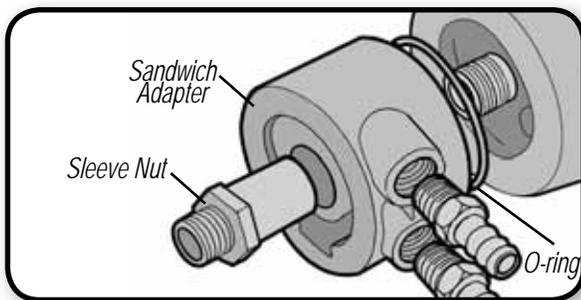

Engine Sandwich Adapter Kits

- Can reduce oil temperature up to 50° F
- Helps reduce coolant temperature
- Extends engine life
- Offered in 3 cooler styles to fit any application
- Complete hardware kit included

The bottom half of your engine relies entirely on the engine oil for cooling. Keeping the oil in the correct temperature range prolongs the life of the oil, helping to keep internal engine parts within the factory tolerances while extending the life of the engine.

See Engine Adapter Quick Reference Guide on page 36 for specific applications.

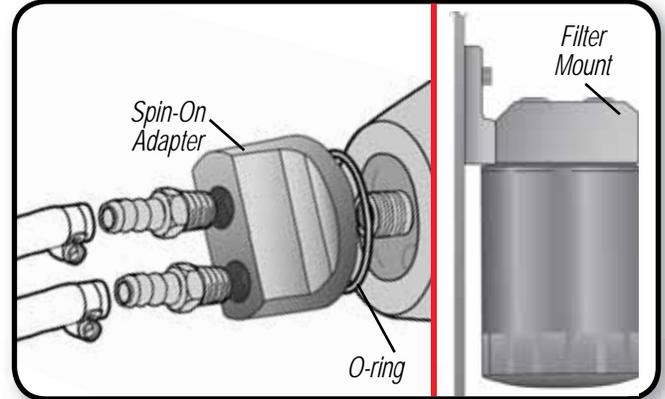

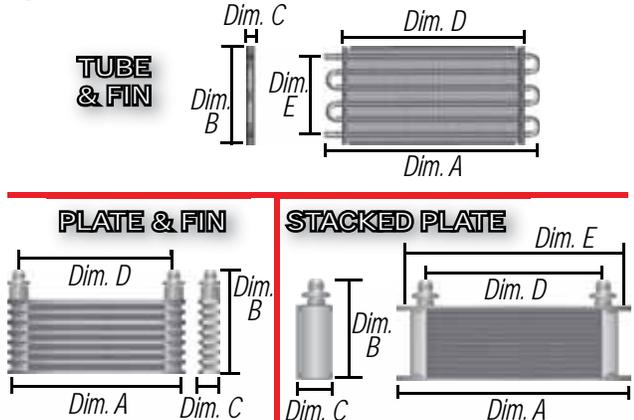

| Part No. | Repl. Cooler | Application | COOLER DIMENSIONS | | | | | |

ENGINE OIL COOLER KITS

Engine Spin-On Adapter Kits

- Can reduce oil temperature up to 50° F
- Helps reduce coolant temperature
- Extends engine life
- Includes ports-up filter mount (Fram PH8A equivalent filters)
- Offered in 3 cooler styles to fit any application
- Complete hardware kit included

See Engine Oil Quick Reference Guide on page 36 for specific applications.

| Part No. | Repl. Cooler | Application | COOLER DIMENSIONS | | | | |
|---------------|--------------|-------------|-------------------|---------|--------|---------|---------|

For vehicle specific applications see application guide or visit www.derale.com

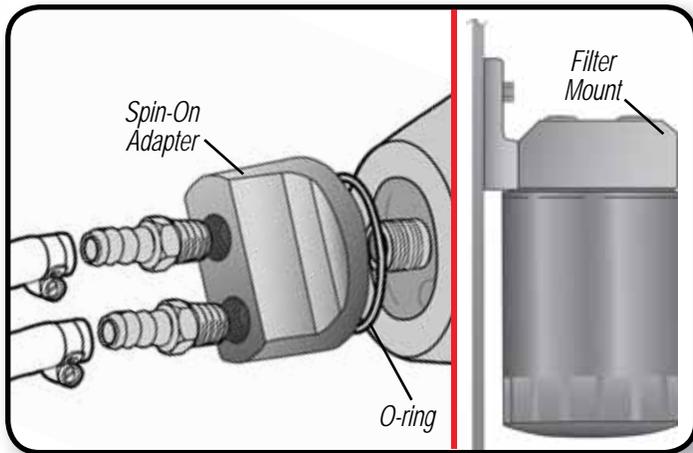

ENGINE OIL FILTER RELOCATION KITS

- Allows for oil filter to be moved to a more convenient location
- Faster and easier filter changes
- Ideal for engine swaps
- Increases oil capacity
- Available in single & dual filter mounts
- Cast from high quality aluminum
- 10 feet 1/2" OEM spec hose provided
- Filter mount uses Fram PH8A or equivalent
- Complete hardware kit included

See Engine Adapter Quick Reference Guide on page 36 for specific applications

Custom applications available

SINGLE MOUNT - PORTS UP

SINGLE MOUNT - PORTS UP UNIVERSAL

DUAL MOUNT - SIDE PORTS UNIVERSAL

For vehicle specific applications see application guide or visit www.derale.com

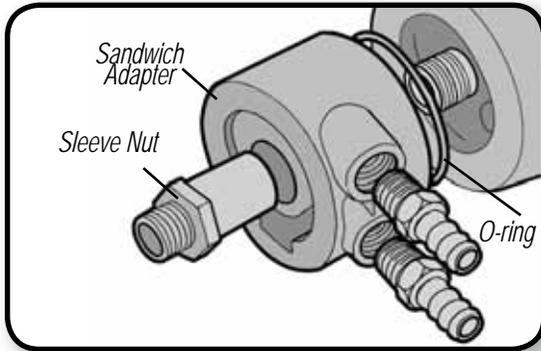

ENGINE SANDWICH ADAPTER KITS

The purpose of a Sandwich Adapter is to provide external oil lines for oil coolers without relocating the factory oil filter.

- Cast from high quality aluminum
- Four designs to fit most applications
- Maintains factory equivalent oil filter

Custom applications available

See Engine Adapter Quick Reference Guide on page 36 for specific applications

Kit Part No. - Includes sandwich adapter, sleeve nut(s) & O-ring(s)
 Complete Kit Part No. - Includes brass fittings, sandwich adapter, sleeve nut(s) & O-ring(s)

ENGINE SPIN-ON ADAPTER KITS

The purpose of a Spin-on Adapter is to provide external oil lines for remote filter mounts and oil coolers.

See Engine Adapter Quick Reference Guide on page 36 for specific applications

Custom applications available

DUAL SIDE PORTS

| Part No. | Application | Thread Size | O-ring Dia. | Ports |
|----------|-------------|-------------|----------------|----------|
| 15746 | Type K | 3/4"-16 | 2 1/2", 2 3/4" | 1/2" NPT |

STANDARD SERIES

- Ultra bright finish
- New Billet style design
- Available in 6 numbers to fit all applications
- 1/2" NPT ports

PREMIUM SERIES

- Black powdercoated finish
- New Billet style design
- Available in 6 numbers to fit all applications
- -10 AN / 7/8"-14 O-ring ports

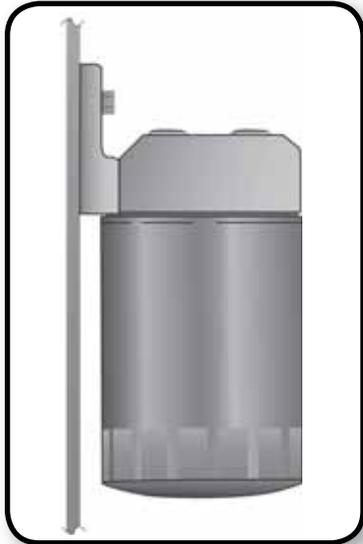

| Standard Series Part No. | Ports | Premium Series Part No. | Ports | Application | Engine Thread Sizes | O-ring Dia. |
|--------------------------|----------|-------------------------|---------------|-------------|--|------------------------|

| 15724 | 1/2" NPT | 35724 | -10 AN O-ring | Type O | 22 x 1.5mm | 2 1/2", 2 3/4" |

For vehicle specific applications see application guide or visit www.deral.com

Filter Mounts - Standard Series

- Allows oil filter to be remote mounted anywhere
- Available in single or dual filter configurations
- Offered with or without hardware kit
- Cast from high quality aluminum
- 3 bolt heavy duty mounting plate

Individual fittings and accessories available on pages 46

Single Mount - Ports Up

| Kit Part No. | Mount Part No. | Filter Threads | Inlet/Outlet Ports |
|--------------|----------------|----------------|--------------------|
| 13005 | 25005 | 3/4"-16 | 3/8" NPT |
| 15708 | 25708 | 3/4"-16 | 1/2" NPT |
| 15728 | 25728 | 13/16"-16 | 1/2" NPT |

Single Mount - Side Ports

| Kit Part No. | Mount Part No. | Filter Threads | Inlet/Outlet Ports |
|--------------|----------------|----------------|--------------------|
| 15709 | 25709 | 3/4"-16 | 1/2" NPT |

Dual Mount - Side Ports

| Kit Part No. | Mount Part No. | Filter Threads | Inlet/Outlet Ports |
|--------------|----------------|----------------|--------------------|
| 15707 | 25707 | 3/4"-16 | 1/2" NPT |

Single Mounts - Left or Right

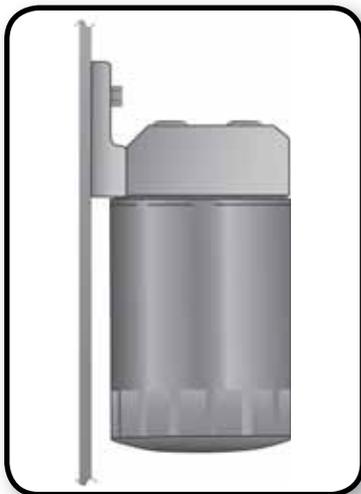

| Mount Part No. | Ports | Filter Threads | Inlet/Outlet Ports |
|----------------|-------|----------------|--------------------|
| 25750 | Left | 3/4"-16 | 3/8" NPT |
| 25751 | Right | 3/4"-16 | 3/8" NPT |

REMOTE FILTER MOUNTS

Filter Mounts - Premium Series

- Allows oil filter to be remote mounted anywhere
- New innovative 180° double mount design
- Removable 3 hole mounting bracket
- Black powdercoated finish
- -10 AN / 7/8"-14 O-ring ports

Individual fittings and accessories available on pages 46

Single Mount - Ports Up

| Mount Part No. | Filter Threads | Inlet/Outlet Ports |
|----------------|----------------------|-------------------------|
| 35708 | 3/4"-16 | -10 AN / 7/8"-14 O-ring |
| 35728 | 13/16"-16 | -10 AN / 7/8"-14 O-ring |
| 35784 | Mounting Bracket Kit | |

Dual Mount - Side Ports

- Absolute dual filtration system
- New design allows multiple filters to be mounted inline

Single Mount - Side Ports

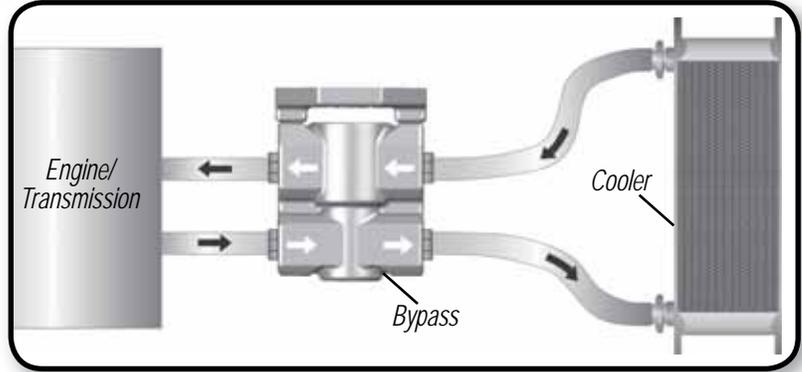

| Mount Part No. | Filter Threads | Inlet/Outlet Ports |
|----------------|----------------------|-------------------------|
| 35709 | 3/4"-16 | -10 AN / 7/8"-14 O-ring |
| 35729 | 13/16"-16 | -10 AN / 7/8"-14 O-ring |
| 35784 | Mounting Bracket Kit | |

| Mount Part No. | Filter Threads | Inlet/Outlet Ports |
|----------------|--|-------------------------|
| 35707 | 3/4"-16 | -10 AN / 7/8"-14 O-ring |
| 35727 | 13/16"-16 | -10 AN / 7/8"-14 O-ring |
| 35799 | 10 AN x 10 AN Aluminum coupler Fitting | |

FLUID CONTROL THERMOSTATS

- Bypasses cooler at 180° F
- Provides quicker warm-up temps
- Perfect for cold weather climates
- Can be rotated 180° to switch flow direction
- Flows up to 20 gallons per minute
- Rated up to 200 PSI

Recommended for:
 Transmissions
 Engines

Individual fittings and accessories available on pages 46

As the fluid temperatures exceed 180°F the thermostatic valve closes, allowing 95% flow through the oil cooler. At temps. below 180°F the valve is open, with 90% of the oil bypassing the cooler. The remaining 10% of the oil flows through the cooler, maintaining constant system pressure, preventing air pockets and eliminating cold oil shock.

Standard Series

- Ultra bright finish
- New Billet style design
- Kit Part No. - Includes brass fittings & hose clamps
- Available in 3/8" NPT or 1/2" NPT ports

| Kit Part No. | Part No. | Description | Inlet/Outlet Ports |
|--------------|----------|----------------------|--------------------|
| 13011 | 25011 | Thermostat only | 3/8" NPT |
| 15719 | 25719 | Thermostat only | 1/2" NPT |
| ----- | 25791 | Thermostat w/Bracket | 3/8" NPT |
| ----- | 25792 | Thermostat w/Bracket | 1/2" NPT |
| ----- | 25793 | Bracket kit only | ----- |

Premium Series

- Black powdercoated finish
- New Billet style design
- -10 AN / 7/8"-14 O-ring ports

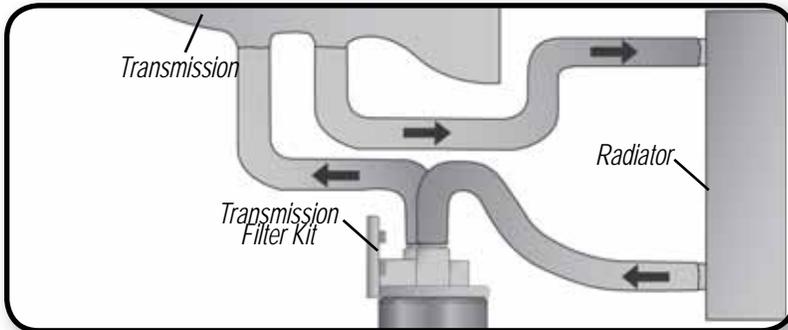

| Part No. | Description | Inlet/Outlet Ports |
|----------|----------------------|-------------------------|
| 35719 | Thermostat only | -10 AN / 7/8"-14 O-ring |
| 35782 | Thermostat w/Bracket | -10 AN / 7/8"-14 O-ring |
| 35783 | Bracket kit only | ----- |

REMOTE FILTER KITS

Transmission Filter Kits

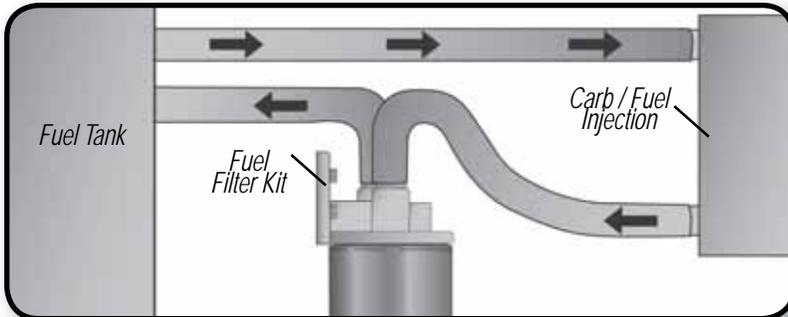

- Extends life of transmission
- Filters out contaminants more efficiently than OE screen type filters
- Universal - fits all automatic transmissions
- Increases fluid capacity

| Part No. | Description | Filter Dimensions |
|----------|---|----------------------|
| 13090 | Standard kit - Includes all mounting hardware | 3 1/2" O.D. x 3 1/8" |
| 13091 | Premium Kit - Includes all mounting hardware plus premium gauge kit | 3 1/2" O.D. x 3 1/8" |
| 13092 | Replacement Filter | 3 1/2" O.D. x 3 1/8" |

Fuel Filter / Water Separator Kits

- Extends carburetor/fuel injector life
- Designed for all fuel types
- Improves engine performance
- Petcock allows for convenient draining of water

| Part No. | Description | Filter Dimensions |
|----------|---------------------------|----------------------|
| 13070 | Single Mount - Side Ports | 3 1/2" O.D. x 7 5/8" |
| 13072 | Single Mount - Ports Up | 3 1/2" O.D. x 7 5/8" |
| 13075 | Replacement Filter | 3 1/2" O.D. x 7 5/8" |

FITTINGS & ACCESSORIES

STRAIGHT HOSE BARB FITTINGS

BELT DRIVEN FAN SPACERS

The Leader in Performance Cooling

- Aluminum construction
- Anodized finish
- Multiple sizes for all applications

Our extruded aluminum fan spacers are available in a variety of sizes and come with a clear, blue or red anodized finish. Mounting hardware included. Refer to instructions below for choosing the correct fan spacer.

Universal sizes available

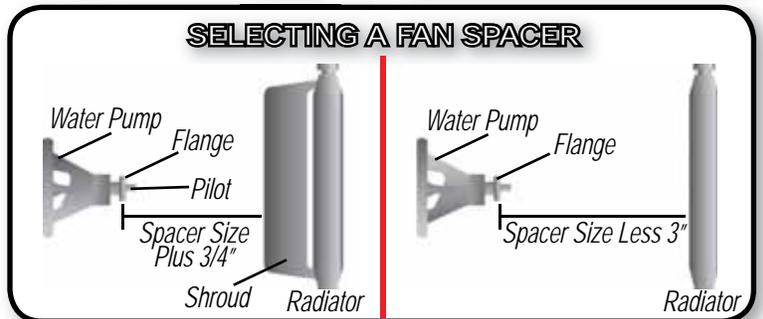

Part# 31510

Part# 31620

Part# 31720

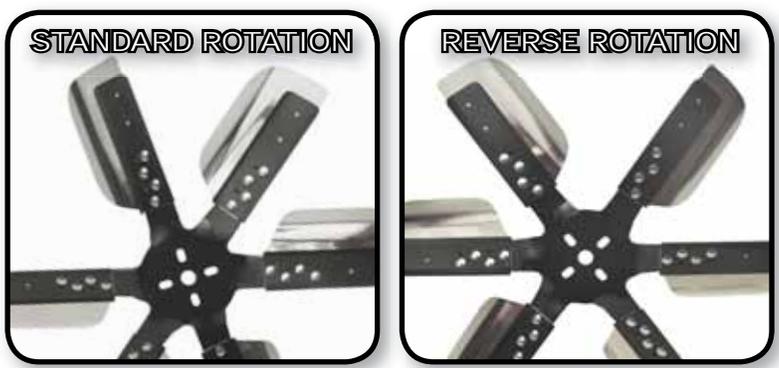

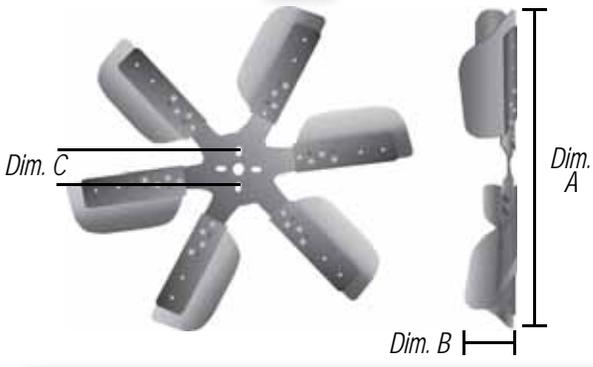

Warning: Fan should have a minimum clearance of 3/4" from the radiator, belts, hoses or pulleys.

| Spacer Kits | | | Dim. A (Length) | Dim. B (Male Pilot Diameter) | Dim. C (Female Pilot Diameter) | Bolts (4 each) | Flange |

Heavy Duty Flex Fans

- Improves performance and mileage
- Heavy duty steel hubs
- Durable stainless steel blades
- Available in standard or reverse rotation
- Rated up to 10,000 RPM
- Large surface area pulls more air at low speeds
- Reinforced blade construction extends fan life

Derale Heavy Duty Flex Fans provide maximum airflow at low RPMs when the vehicle speed provides little or no airflow through the radiator. At higher RPMs, the vehicle speed provides ample airflow and the fan blades flatten out to minimize engine loading, increasing horsepower and mileage. Fan spacer sold separately.

FAN CLUTCHES

- All aluminum body for maximum heat dissipation
- High quality heavy-duty bearing with Hi-Temp moly grease
- Multi-Fin design grabs more air and dispels more heat
- CNC machined to OE Specifications

For vehicle specific applications see application guide or visit www.derales.com
Applications available to fit most year, make and model vehicles

Fan clutches are engineered to improve the vehicle's cooling system efficiency. The clutch engages the fan at low speeds when additional cooling is needed. At high speeds the clutch disengages the fan, removing the load against the engine and allowing the engine to run more efficiently.

There are two types of fan clutches, non-thermal and thermal. Non-thermal fan clutches engage the fan based on the shaft speed of the water pump. Thermal fan clutches engage the fan based on a bi-metal thermostatic coil, which senses the under hood temperature.

Derales offers a full line of thermal and non-thermal fan clutches to fit most popular foreign and domestic applications. Fan clutches are available in standard and reverse rotation.

NON-THERMAL

THERMAL

THERMAL SCREW ON

THERMAL TRUCK DRIVE

In Memory of
Pete Riker

11/15/1944 - 7/30/2008

Pete was old school when it came to lending a helping hand, but innovative and forward thinking with his engineering, knowledge and abilities. He will be sorely missed by family, friends, and all those in the hot rodding community who knew him.

Rest in peace, Pete.
